Professional Experience

AUG 2016
PRESENT

TECHNICAL LEAD; SENIOR INSTRUCTOR

Turing School of Software & Design

Design front-end curriculum to follow industry trends and best practices. Assist instructional staff in creating goals and action plans for professional development. Teach and mentor students, providing constructive feedback and actionable strategies for continued growth.

SEP 2014
NOV 2016

SENIOR SOFTWARE ENGINEER

Mozilla

Built applications to test new web APIs, reporting implementation bugs and discussing potential changes with spec writers. Collaborated with platform/devtools engineers to provide feedback on developer needs.

JUN 2013
SEP 2014

INTERACTIVE NEWS DEVELOPER

The New York Times

Worked with desk editors and reporters to generate interactive story ideas and implementations. Built applications and graphics to accompany high-traffic news coverage. Maintained internal applications that allowed news desks to reproduce common interactives.

JAN 2013
JUN 2013

SOFTWARE ENGINEER

Condé Nast

Developed the front-end of a custom CMS for internal brands to create & update web content. Produced consumer-facing applications for individual brands to incorporate into their content.

OCT 2010
JAN 2013

WEB DEVELOPER

The Wall Street Journal

Developed digital advertisements for WSJ clients, tracking impressions & interactivity with Omniture. Ensured cross-browser/platform compatibility and responsiveness on all digital ads. Built an internal CMS to create and maintain common ad units.
